

ENERGY

We calculate and steer for the purpose of eco-production and saving resources – for a life with rhyme and reason.

CLIMATE

We balance and simulate for the purpose of protection and adaptation - for a life of breathing and circulation.

ENVIRONMENT

We recognize and show for the purpose of sparing and pacification - for a life with heart and flair.

TECHNOLOGY

We find and recommend for the purpose of utilization and improvement - for a life with reason and sense of proportion.

Our range

Small and large projects get – independent of their scope – the right consultation, development and accompaniment for pure purpose of:

„Climate, environment, resources, justice and safety - many problems of our human world are ACUTE. The old energy systems are a big reason for it. Our daily mission is to contribute to a sustainable and positive change at **eKUT**.“

eKUT

Energie. Klima. Umwelt. Technik.

ENERGY.
CLIMATE.
ENVIRONMENT.
TECHNOLOGY.

Strategy

So that you know,
why we do that!

From raising **awareness** and **information** flow up concrete development of **strategies** and **networking**, we **support** on the way from an idea to making a decision.

OUR AIM:
Contribution to a CO2-free
shaped footprint

KNOW WHY

Smart concepts

KNOW WHAT

Working solutions

OUR AIM:
Sustainable energy consumption
in kWh

Technology

So that you know,
what you want!

We **develop** and **support** projects for **individuals, businesses** as well as **smaller and entire regions** (renovation, new construction, monitoring, etc.). We focus our **analyses, suggested measures** and **concepts** in the areas of **heat, electricity** and **mobility**.

Financing

So that you know,
how you get it!

We develop **suitable financing models**, so that projects can be implemented. Depending on the needs we **combine various options**, such as:

- Funding
- Contracting
- Participation models
- Project communities
- Equity/debt capital

We support the development process with expertise and experience, as well as the renewal of business models.

OUR AIM:
Optimize necessary investments
in Euros.
